

TruSens™

The Power of Fresh Air

Performance Series Air Purifiers

Environmental wellness
brought to you by
ACCO Brands.

More power where you need it

TruSens Performance Series Air Purifiers deliver complete coverage with powerful CADR performance designed to improve indoor air quality in professional large spaces. Ideal for offices, schools, healthcare facilities, hotels, and restaurants.

The Z-7000 is recommended for spaces up to 2,000 sq ft at 2 air changes per hour (ACH) and has a maximum Smoke CADR of 519 cfm. The Z-6000 is recommended for up to 1,750 sq ft spaces at 2 ACH and has a maximum Smoke CADR of 485 cfm.

NOTE: AHAM uses 4.84 ACH therefore values are slightly different.

Know your air quality with a remote SensorPod™ monitor and the interactive air quality indicator. SensorPod provides detailed readings of air quality and communicates to the air purifier which automatically adjusts in real-time. The air quality indicator display reflects particulate matter and VOCs.

Manage the ever-changing air quality where it matters most.

Reduce airborne virus exposure

For a cleaner and more comfortable indoor environment, the dual-sided, combination True HEPA filter captures airborne viruses and bacteria, including 99.99% of airborne coronavirus.*

Activated Carbon breaks down smoke, odors and VOCs, while the TRU-BEAM™ UV-C light inactivates viruses and bacteria trapped on the True HEPA filter.

*Results from independent third-party testing using aerosolized airborne concentration of human coronavirus 229E over a two-hour period in a sealed chamber. HCoV-229E is a well-established surrogate for SARS-CoV-2.

Provide peace of mind to your employees, patients, customers, and students.

Save where it counts

Exceptional CADR. Extraordinary lifetime value. TruSens Performance Series Air Purifiers deliver complete coverage in professional spaces with a powerful clean air delivery rate, full year** True HEPA/Activated Carbon filtration and maintenance free TRU-BEAM UV-C.

**Operating 12 hours per day, under typical operating conditions.

- Powerful CADR
- 1-Year* supply of filters
- No installation required
- Maintenance free UV-C
- Castors for easy mobility
- Kensington security slot
